

NOTE: All hydraulic functions portrayed on this diagram are controlled by a separate in-cab digital control console.

MODEL	HYDRAULIC FUNCTION
24-27 GPM	Raise or lower the bar at 6 to 10 seconds
10 GPM	Row markers on 40'-60' bars
5.1 GPM	Row markers on 30' bars
19 GPM	CSD to run, switches off when raising the bar
